

The timber treatment operations of

Woodsafe Timber Protection AB
Fågelbacken Tillbergaleden Västerås Sweden

have been assessed and certified as meeting the requirements of the
Wood Protection Association

Benchmark Quality Approval Scheme

for the fire retardant treatment of the components listed below in
accordance with the standards and practices defined in the WPA
Flame Retardant Specification Manual.

Approved FR Treater

Solid wood panelling and cladding treated with Woodsafe
FirePRO fire retardant.

Solid wood panelling and cladding treated with Woodsafe
Exterior Fire-X.

Detailed clarification of the scope of this certificate and the
applicability of the Benchmark quality scheme is available from the
Wood Protection Association.

The scheme does not confirm compliance of the fire retardant used
with British or European Standards or other specifications - that is the
responsibility of the fire retardant manufacturer.

This certificate of conformity is valid from the date indicated for twelve
months and remains valid subject to satisfactory surveillance visits.
